January 1, 2012

To our valued Customers, Suppliers and Stakeholders,

Re: Notice of TCG Asphalt & Construction and Cayuga Asphalt & Construction Name Change

We are pleased to inform you of some important changes related to the TCG Asphalt & Construction (TCG) and Cayuga Asphalt & Construction (Cayuga) brands.

As of January 1, 2012 the name of these companies officially changes to *Dufferin Construction Company, a division of Holcim (Canada) Inc.* As you may be aware, both TCG and Cayuga are already divisions of Holcim (Canada) Inc., and have been operated under Dufferin Construction's administration.

We have made the decision to change these trade names in order for us to improve the level of consistency across all Holcim Canada divisions and to have a unified look and feel in the marketplace. 2012 is also the centennial year for Dufferin Construction when it will proudly celebrate 100 years of operations in Canada.

To assist us in the brand transition process, we would appreciate it if you could amend your accounting and sales records as of January 1, 2012. Other than requiring you to update your records, this name change will not affect our relationship with you. The scope of work and level of quality and service you have come to expect from TCG and Cayuga will not change. Most of all, the business structure, contact information and the people who deliver that service, will not change. The only difference you will notice is that as of January 1, 2012, any documentation you receive from us will bear the Dufferin Construction name and logo.

Holcim Canada is one of the country's largest building materials suppliers and construction companies. With over 3000 employees, the company's Ontario business divisions include Dufferin Construction, Dufferin Aggregates and Dufferin Concrete. We are very proud of this affiliation and look forward to serving you under the Dufferin Construction brand in 2012.

Yours sincerely,

Dufferin Construction Company
